

ECOLOGIC 500 PROBIOTIC

Health-Bac™

Supports intestinal, digestive and immune health*

Broad-spectrum, plant-blend vegan probiotic complex / Three Billion CFU

Friendly bacteria (probiotic organisms) are required for ideal health. The body needs them for normal digestion as well as optimal immunity.* These friendly bacteria are powerful in their functions but are readily damaged or even destroyed by toxins. Plus, antibiotics thoroughly devastate them. Also, they are depleted by stress, processed foods, and pharmaceutical drugs. Thus, for optimal health they must regularly be replenished.

There are numerous issues today with probiotics. Many probiotics contain bacterial strains or species that are not proven to readily implant in the human digestive tract. This reduces their effectiveness. Also, a number are potentially contaminated due to their low-quality source. Swine-sourced probiotics are also common. These may contain residual contaminants from processing, including noxious, potentially infectious, swine-based pathogens. Plus, they are unfit for vegetarians.

Health-Bac is the only truly vegan probiotic supplement available. It contains the highest quality and most natural friendly bacteria known. Clinically demonstrated to survive the intestinal tract and successfully implant in the human gut, this is a true power for intestinal health.* Health-Bac is a broad-spectrum probiotic, containing nine friendly bacteria strains. All strains present in this formula are 100% plant-based.

Health-Bac contains the Ecologic 500 formula. This is the most researched and tested probiotic formulation known. Ecologic 500 includes the following healthy bacteria strains: *Bifidobacterium infantis*, *Bifidobacterium lactis*, *Bifidobacterium longum*, *Enterococcus faecium*, *Lactobacillus acidophilus*, *Lactobacillus paracasei*, *Lactobacillus plantarum*, *Lactobacillus salivarius*, and

Lactobacillus lactis. Also, the strength of this broad-spectrum friendly bacteria supplement is boosted by prebiotics fructooligosaccharide (FOS) and inulin.*

The word probiotic means “for life.” So, for good, optimal health and vital life take Health-Bac.* Take this powerful implanting probiotic for enhancing intestinal health.* It’s implantation that matters not merely the numbers.

Directions: Dissolve 1 teaspoon (3 grams) of Health-Bac powder in a glass of lukewarm water and drink. For best results, take at bedtime at least two hours apart from any P73 products. Always use Health-Bac when taking Oreganol P73 or OregaRESP daily. Health-Bac can be taken with OregaMax. Does not need refrigeration. Of note, Oreganol is only mildly antagonistic to probiotics. Take Health-Bac an hour away from the oil.
